VOL. VII. MIDDLETOWN, NEW CASTLE COUNTY, DELAWARE, SATURDAY MORNING, MAY 9, 1874. NO. 19.

MANAGEMENT OF A HOUSEHOLD.—Young ladies, cut this out and pin it in your bonnets: "No young woman ought to feel herself qualified to become a wife until she is sure she understands how to do the most that can be done with her husband's money. The management of a household is not a thing to be properly and safely intrusted to hireling hands. A servant is a broken reed for the head of a family to lean upon. There are a thousand little ways in which money must be expended, in which real shrewdness and enterprise are requisite in order to use it to the best advantage; and there are a thousand other ways of saving money, open only to those who have studied aright the art of economy. The Turkish proverb has it, that 'a prudent woman is a mine of jewels,' and, like many other Oriental sayings, this is beautiful for the truth it embodies. A wasteful housekeeper not only actually robs those for whom she undertakes to manage, of the comforts it is her duty to provide for them, but keeps her husband head over ears in debt, and makes the domestic life of a poor man a continual series of experiments in shinning it from one day to the next; in keeping the stomach full, though the purse be empty."

A SCARED PUBLICAN.—Not very long ago two ladies of this city who were engaged in gathering flowers and plants for the decoration of a church at special service found it desirable to obtain some ivy leaves, and having learned that the keeper of a lager-beer saloon in the western part of the city had quantities at dispusal, repaired tbither to obtain a supply.—On reaching the saloon the boy behind the bar, who was not made acquainted with their business, responded in reply to an inquiry that the proprietor was not in and on their expressing a determination to await his coming, further said that he would not be in for an hour; which time, evidently suspicious of their intentions, he subsequently lengthened to two or three hours. The ladies patiently waited, however, and before long the fat little German proprietor, who had evidently been reconnoitering the invaders, came up puffing and blowing, determined to have a parley. The ladies advanced and made known their request, when the clouded face of the German brightened and he said, "Take all you want, ladies. Mein Gott, I thought you was the praying ladies—dem crusaders."—*Balto. Sun.*

It is related that a plain, honest farmer, the friend of Clay, being solicited to be a candidate for the Legislature, called on the great Clay and sought his counsel as to the propriety of serving his country as the maker of laws. "My advice to you," said Mr Clay earnestly, "is to keep out of politics. They will trump up all kinds of charges against you and ruin your character." "But," replied the honest old farmer, "they can't say anything against my character. Everybody knows that I have led a blameless life." "Try it," added Mr Clay, who knew how it was himself, "try it." The good old man did try it, and before the canvass was over he withdrew from it in very deep disgust. Meeting Mr Clay afterwards he was asked what were his chances for election "I have withdrawn," he replied somewhat earnestly. "Do you think," said he, "they not only charged me with stealing a sheep once, but what is worse, they came d—d near proving it? I am done with politics."

WITHOUT AN ENEMY.—We believe in the man or woman who has "enemies." This does not sound *sound*, but it *is* sound. Your milk-and-water people, who content themselves with simply doing no harm, at the same time never do any good They are mere negatives. Your man of force, who does not wait for a stone to get out of his heaven-appointed way, but manfully rolls it over, may unintentionally hurt somebody's toes in the act; but thousands who will have to travel that way will thank him for clearing it. The man or woman who has no enemies is generally a sleek, creeping, cowardly creature, caring for no one but himself—smirking and creeping his unchallenged way to the obscurity he merits. He adds nothing to the common stock—does no good in the world, and is lowered into his six feet of earth without one sincere regret from any one.

GETTING MAD ABOUT IT.—An Albion correspondent of the Rochester *Express* tells how a man keeping a dining-saloon at the Central Railroad depot in the former place, becoming tired of answering questions concerning a new depot, placed upon his sign the following: "Don't know when the new depot is to be built; don't know where it is to be built; don't know whether of brick or not; don't know anything." As this did not seem fully to meet the exigency, Mr. Saloon-keeper recently added to the above legend the words following, to wit, that is to say: "And don't care a ——?"

EDUCATION.—No more truthful sentence was ever penned by man than the following written by Chancellor Kent: "The parent who sends his son into the world uneducated defrauds the community of a lawful citizen and bequeaths to it a nuisance." These words should be written in letters of gold over the entrance of every school in the land.

Boston has a target company composed of young ladies.

Local and State Affairs.

Odessa Items.

[From our Odessa Correspondent.]

The Young People's prayer meeting is still continued. The first of the month was celebrated by a number of May parties. Our merchants have laid in their spring goods and have full shelves. Quite a large amount of grain has been stored, for shipment, in our warehouses. A vessel laden with coal lies at our wharf, the harbinger of spring trade. The Black Board exercise in the M. E. Sunday School has greatly increased the interest of the scholars in the proceedings. Mr. Gilch has received a part of the lumber for his new house and will soon commence building. Mr. R. Mailley has just returned from a pleasure trip in his yacht, which is a fine little craft, down the bay. The ladies of the M. E. Church Mite Society propose to hold a festival during the berry season for the benefit of their parsonage. Messrs. Enos, Gilch and others have made marked improvements in their properties by curbing and paving the streets in front of them. The funeral of Mrs. Davis, the mother of our esteemed friend, Henry Davis, Esq., on Saturday last, was largely attended. Mrs. Davis was a devoted Christian, and a most estimable woman. On Thursday afternoon of last week a daughter of a neighboring farmer, visiting at Mr. Newman's in this town, was attacked and severely bitten by a dog. The occurrence created some excitement as apprehensions of hydrophobia in the animal were entertained. Mr. Townsend was, also, bitten by a small dog a few days ago. Should many more of these occurrences happen perhaps the "mad-dog pills" of one of your citizens will be in demand.

Minor Topics.

The Sussex *Journal* says the Peach, Pear and Berry crops in that county will be a failure.

The contract for building the new Kent county Court House has been awarded to Fisher & Buckman, of Dover, for $31,000.

Maulove D. Wilson has taken out Letters of Administration on the estate of Mark D. Wilson late of Appoquinimink Hundred, deceased.

Saturday, June 6th, has been fixed upon by the Democratic county Executive committee for holding the county Convention.

Edwin Springer, a grandson of Peter Springer of Wilmington, was drowned in the Chesapeake Bay, near Great Mills, St. Mary's county, Md, while boating, last Tuesday week.

Rev. Dr. Patton, of the Presbyterian Church of this town, will (D. V.) preach in the Levels' School House to-morrow (Sunday) afternoon at 3 o'clock. The public are invited to be present.

The *Delawarean* complains of the bad condition in which the State Arms are kept in the Arsenal at Dover. It says there is not a single gun in a serviceable condition. Well, as the Delaware shad fishery question is settled with Jersey there is no immediate danger of a State war.

The Temperance Association.

A large and interesting meeting of the Ladies Temperance association was held on Wednesday last. The report of the members of the executive committee showed flattering results. The association has arranged for a childrens' meeting for this (Saturday) evening at 7 o'clock, in the Presbyterian church, to which all children and grown persons are cordially invited. Drs. Patton, Matlack, Crowell, and other interesting speakers are promised for the occasion Temperance songs will be sung and no effort will be spared to make the meeting one of profitable enthusiasm. To the resolution of a former meeting respectfully requesting the clergymen to advocate the cause of temperance from their respective pulpits, the Rev. Dr. Patton and Rev. Dr. Matlack sent favorable replies, Dr. Matlack appointing to-morrow evening at 7:30 to which service Dr. Patton will invite his congregation. Unavoidable absence will prevent Dr. Patton from following on the next Sabbath evening; but he will do so as promptly as possible on his return. The association adjourned to meet Saturday afternoon, May 16th, at 3 P. M.

New Machine Works.

J. B. Fenimore is erecting a large frame building 86 ft. by 44 ft. deep, two stories high, on south Railroad Avenue, near the Delmarvia fruit factory. The first, or ground floor, will be used by Messrs. Hamilton & Woodall, for the manufacture of the celebrated Delaware Phosphate and Grain Drill, patented by Dr. W. N. Hamilton. The second story will consist of one large room which Mr. Fenimore wishes to rent to some responsible, energetic business men as a boot and shoe factory. He has, we have been informed, had some correspondence with parties in New Jersey in reference to the matter, but with what success we have not learned. Such an institution would, without doubt, be of great benefit to Middletown, and it is to be ardently hoped that our enterprising townsman will meet with the success which his zeal in the cause of improvement deserves.

Distinguished Visitor Expected.

We learn the Rev. Robert Morris, L. L. D. formerly of Kentucky, and Secretary of the American Holy Land Exploration, and recently from Jerusalem, has accepted an invitation to visit the Masonic fraternity of this place. During his visit he will address the Sabbath School children and exhibit specimens from the Holy Land. Dr. Robert Morris is a very distinguished divine and equally distinguished as a Masonic writer and poet, being the author of the poem so well known and so often quoted among Masons, viz., The Level and the Square. We doubt not that our citizens will honor the Rev. Doctor and properly appreciate his visit, and it cannot be doubted that the interest now awakening in Palestine will be greatly increased by hearing the words fresh from the lips of an eye witness of such intelligence.

Time.

"Time tries all things,"
Friendships die away,
Rocks crumble into dust,
And men's strong works decay.

Earth's beauties fade,
The strongest links must sever,
But clothes at TOWER HALL made
Will *almost* last forever.

Our Suits, besides being very elegant, are exceedingly durable and very low priced. BENNETT & CO., TOWER HALL, 518 Market Street, half-way between 5th and 6th Streets, Philadelphia.

Sellers' Fruit Factory.

Mr. Morrison is pushing forward with his accustomed energy the building for Mr. Sellers. The addition is nearly completed making the factory almost as large as the Delmarvia building. The new evaporator is at the R. R. depot, but has not yet been put up.

The mason work is being done by C. M. Stanger, and will doubtless be done right.

Purchase of a Rail Road.

The Philadelphia, Wilmington and Baltimore Railroad has purchased the Junction and Breakwater Railroad, extending from Lewis, on the Delaware Bay, to Harrington, on the Delaware Railroad. This road was to be a portion of the Baltimore, Chesapeake and Delaware Bay Railroad, a branch railroad from Harrington to Queenstown, in Queen Anne's couney, completing the road between the two bays. The P. W. and B. R. R. already controls the Delaware Railroad, and by this purchase now gains control of the other route also.

Fire.

The dwelling house of Mr. Julian Cochran, about one and a half miles from Middletown, was destroyed by fire yesterday morning By the efforts of the neighbors who hastened to Mr. C's assistance, on the discovery of the fire, the furniture was saved, but the house was burned to the ground. The first report of the fire created considerable stir among our citizens, and two Babcock Extinguishers were placed in a wagon and taken out to the scene, but arrived too late to do any good. We have not yet heard how the fire originated.

Phosphates.

Messrs. Foard & Comegys have on hand a large supply of Pacific and Bahama Guanos and Mero Phillips', J. M. Rhodes' and Turner's Excelsior Phosphates which they offer to the farming community on the most reasonable terms. Also Slaymaker's London run lime for which they are agents.

Murphey's Dam Broken Again.

Mr. T. C. Murphey's mill dam on Bohemia Manor was torn out and badly broken last Sunday afternoon. The main cause appears to have been a defect in building the dam, after it was washed out by the flood last summer. Mr. M. estimates the damage done at about $1000.

Maryland Affairs.

Dr. Chas. M. Ellis has been appointed physician for the inmates of the Almshouse of Cecil county.

"Spaniard's Neck Grange," P. of N., the first in Queen Anne's County, was organized on the 11th ult.

At the Cranberry Fishery on the Chesapeake, last week 250,000 herring and shad were taken at one haul, or would have been taken if the seine hadn't broken.

A colored lodge of Good Templars was instituted at Port Deposit, Cecil county, on the 20th ultimo, and the officers duly installed. Thirty persons took the pledge.

John. S. Walters, who made an assault on Wm. S. Green, at Millington, last fall, cutting him severely with a knife, was tried and acquitted at Chestertown week before last.

The corner stone of a new Masonic hall will be laid on or about the 10th of June next at Cambridge, Dorchester county. A Festival will be held on the occasion and a feast prepared for all who may attend.

RARE TREAT.—Dr. D. L. Dashiell will deliver a lecture in Bethel M. E. Church, on Tuesday evening next, 12th inst, for the benefit of the Ladies' Mite Society. From the well-known popularity of the lecturer, a rare treat is sure. Subject, "Young Men;" tickets, 25 cents.

The Kent co. R. R. is in hot water again, on account of not being able to meet the payment on the leased road from Massey's to Townsend, for which reason it has been restrained from running its cars over that road. Its rolling stock is now in the sheriff's hands.

The *Democrat* asked, a short time ago, "why not fence Odessa in and white-wash the fence!" A little farther down in the same column it quotes from the Kent *News* to the effect that when country people go to Elkton they are astonished at seeing a house being built. Wonder who will get the fence first!

The scaffolding of the Presbyterian church at Elkton fell down last Monday, throwing Mr. P. C. Strickland, who was at work upon it, to the ground and breaking his leg, causing a compound fracture. The bone protruded through the skin. Two other men, Johnson and Green, were also on the scaffold at the time and were slightly injured.

Bishop Lay, of the Easton Diocese, was attacked with a severe spell of neuralgia while visiting at Newtown, one day last week, and to obtain relief from the pain, saturated a handkerchief with chloroform and retired to bed. But the remedy liked to have proved worse than the disease, for late in the evening he was found in an insensible condition. Under the influence of restoratives, however, he was soon resuscitated.

Two boys named respectively Christian Geise and George Stein became involved in a quarrel, in Baltimore, on Monday, and the boy Geise struck the other boy on the head with a potato masher cutting him pretty badly. For this young Geise was arrested and taken before a magistrate who released him on bail. As he was leaving the magistrate's office some one in the crowd that had gathered said, "hang the young rascal." This so frightened the boy that he ran away and concealed himself in the house of a relative, and afterwards fearing that the other boy was fatally injured and he would be hung, he took arsenic and committed suicide.

TAPE WORM. TAPE WORM.

Tape Worm removed in from 2 to 3 hours with harmless vegetable medicine. The worm passing from the system alive. No fee asked until the entire worm, with head passes. Medicine harmless, can refer those afflicted to the residents of this city whom I have cured. At my office can be seen hundreds of specimens, measuring from 40 to 100 feet in length. Fifty per cent. of cases of Dyspepsia and disorganizations of Liver are caused by stomach and other worms existing in the alimentary canal. Worms, a disease of the most dangerous character, are so little understood by the medical men of the present day. Call and see the original and only worm destroyer, or send for a circular which will give a full description and treatment of all kinds of worms, enclose 3 cent stamp for return of the same. Dr. E.F.Kunkel can tell by seeing the patient whether or not they are troubled with worms, and by writing and telling the symptoms, &c., the Doctor will answer by mail. DR E. F. KUNKEL, No. 259 N. NINTH ST., PHILADELPHIA, PA. (Advice at office or by mail, free.) Seat, Pin and Stomach worms also removed.

NO EXCUSE FOR BEING SICK.

No person can use Boschee's German Syrup without getting immediate relief and cure. We have the first case of Coughs, Colds or Consumption, or any disease of the Throat and Lungs, yet to hear from that has not been cured. We have distributed every year for three years over 250,000 sample bottles "free of charge" by druggists in all parts of the United States. No other manufacturer of Medicine ever gave their preparations such a test as this. Go to your Druggist, Dr. Chamberlaine, and get a bottle for 75 cents and try it—two doses will relieve you. Dec 6

Few people unacquainted with physiological chemistry are aware of the quantity of iron in the blood, but all should know the importance of keeping up the supply, for debility, disease and death are sure to follow when the quantity becomes too much reduced. The Peruvian Syrup (a protoxide of Iron) supplies this vital element and has cured many chronic diseases.
